NOTE INCONSISTENCIES IN PSKOV OBLAST AGRICULTURE

Leading agricultural workers of the Pskov Trust of the Ministry of Sovkhozes RSFSR recently met in Pskov. They discussed problems concerning the completion of the 3-year plan for the development of general livestock productivity. Serious shortcomings were revealed in the productive activity of several sovkhozes and in Pozherevitskiy Sovkhoz in particular. Practical measures to improve work in sovkhoz trusts were laid down. An appeal was made to all sovkhoz workers and specialists to complete the 3-year plan for livestock development ahead of schedule.

Sovkhoz workers at the meeting pledged to produce an average of 3,700 kilograms of milk per cow, and to increase production in comparison to 1949 as follows: milk 37 percent, meat 13 percent, and eggs 106 percent. They further promised to increase the average weight of calves, and to gather an average of 350 centners of root fodder, 200 centners of potatoes, 15 centners of hay from natural meadows, and 22 centners of sowed grass per hectare. A pledge was made to electrify all sovkhozes during 1950.

Following is the percentage fulfillment of the agricultural plan of Pskov Oblast rayons as of 5 June 1950.
